HOW SOURCING ARMY BORN

Sourcing Army LLC is a child brain of RBRL International. It was 2005, a 3rd year student was looking for some kind of part time job to fulfill his daily needs as he was belong to a middle class family, so he doesn't have extra money on pocket to have some fun with friends but he was desperate to earn some money. There were several people around him who promised him several types of job but every promise was broken & after searching job for 6 months one person has arranged an interview with a garments manufacturing company. The person took the interview was Executive Director of the company. At the starting of the interview I have been asked what about my educational qualification & as I was a 3rd year Bachelor student & haven't finished my 4th year yet so I was just a HSC passed person to him, I was so embarrassed because before my interview he knew that I was looking for a part time job & he was informed before by that person who took me to that company for the job. The Executive Director told me his peon is a HSC pass person, so how can I expect a job here. That was the end of my interview for that day. After that I have been attending many more interviews & promises but nothing good happened to me & at a certain time I got fed up. On that journey I have met lot of real persons, Bad business personnel & I have seen lack of loyalty & honesty of people.

It was December 2005 I have decided to start my own company without a single penny on hand but those words were in my mind REAL | BUSINESS | REAL | LOYALTY so I decided to keep my company name RBRL & as the business deal internationally so I added the word International. That's how RBRL INTERNATIONAL was born.

RBRL JOURNEY

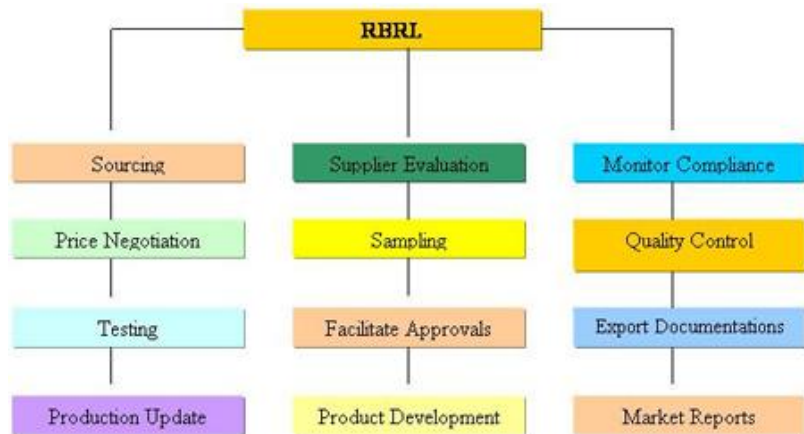

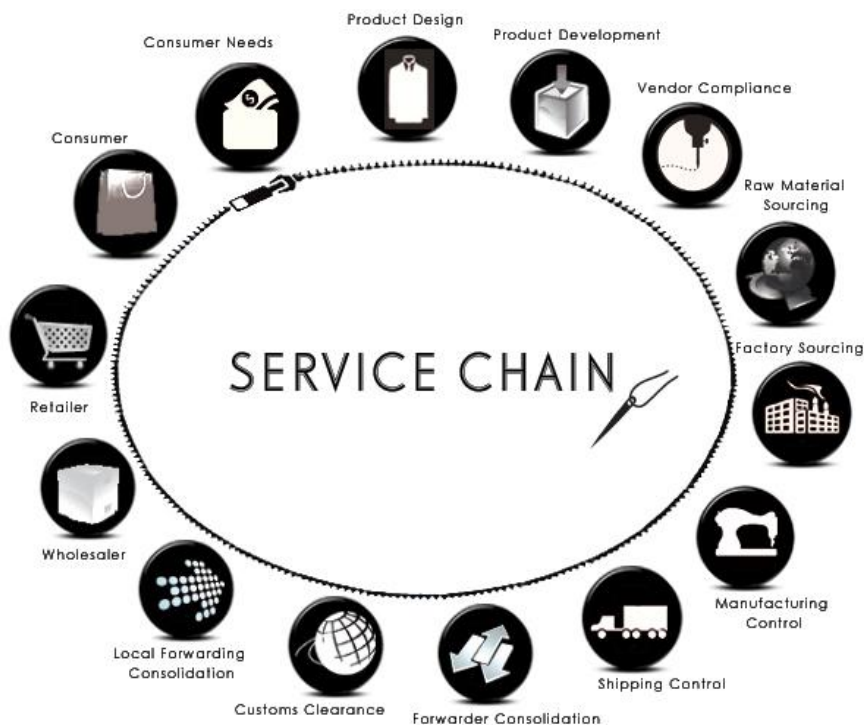

RBRL International was established in 2005 with an intention to fulfill the demands of readymade garments buyer's. **RBRL** is a readymade garments buying house & it has the authority to export & trading with other companies in own country & abroad. **RBRL** has started doing business with selling of stock lot items to Dubai, Singapore & Saudi Arabia. After a year or so it has started to export OEM order to Italy for a brand called HEAD. We have started doing business with a Singaporean company & done a very good job. By the time **RBRL** was in touch with many EU & USA Importers who were also interested to do business with **RBRL**. By the grace of almighty **RBRL** has business contract with 34 quality garments manufacturing factories in Bangladesh today, three big textile companies from India to source technical yarns & few accessories supplier from china as well. Even **RBRL** can supply stock lot products round the year to any country. Our goal is to serve the buyers of excellence with quality, knowledge and integrity, which allows us to contribute to business success. Decades of experience in driving technology and our wide range of services have become the basis of long-term business relations. In 2008 we have became an exclusive agent for an USA importer called VIVA Cotton LLC, & we were exclusive for them till 2012. After 2012 we have done business with many different customers from EU & USA. In 2016 we have decided to start our own company in USA & we have launched our company in USA as Sourcing Army LLC.

Production Guidelines

Monitoring progress and Quality of orders in production is a crucial and essential part of the Production function. Our Production & QC department takes charge of the process after all sampling and pre-production activity is completed through our merchandising department. With a dedicated team of 17 QC personnel, production is diligently checked daily at the manufacturer's premises to ensure complete conformance to standards and requirements. We work with a number of qualified manufacturers whose processes meet the quality standards of Apparel Production.

Daily production figures are verified by our own staffs who visit the manufacturer's factory daily. Our merchandising department works with buyers in their needs to move in or move out deliveries based on their requirements for the retail industry.

- Full time quality Control team.
- Everyday Quality Inspection.
- Collecting report From QC team.

Quality Maintain Process:

We offer quality products that are built to compete with the best in the world. All our products are tested and verified for the best quality. We have our own QC department & we start checking quality from making yarn to shipment, in every stage we have our specialist quality controller to ensure the merchandise quality. We ensure the right yarn, right fabric weight, right pantone color, right pattern, right sewing, the right finishing and as well as on time shipment. We believe quality is the main key for clothing Business. We do have our in-house color fastness checking, fabric weight checking, fabric washing for shrink & twist, color shading box to confirm that everything is running perfectly.

Quality Inspection Guidelines to follow by Our QC Team
